

## **What makes Offwell such a successful school?**

Recipe serves 87 pupils:

First, take some Honitonian children, Offwellians, Northleians and Luppitans, mix them together across 7 year groups until they become enthusiastic pupils!

Next add some inspiring teaching with an ambitious Head to create some fun and interesting lessons. Simmer gently and sprinkle with some good friendships, exciting break times and garnish with some yummy school dinners.

As these ingredients begin to boil, take them out of the classrooms and allow to cool during PE and Sports days.

Dish up and serve with a side of 'Be Well, Learn Well, Live Well – Offwell'!

Note: A smaller portion is also available by attending morning and after school clubs.

Warning: Too much home-schooling will mean that certain ingredients do not blend together so well and could affect the overall flavour!
